

1 **LISTING OF THE CLAIMS**

2 **Claims pending**

- 3 • At time of the Action: Claims 1-20.
- 4 • After this Response: Claims 1-20.

5 **Canceled or Withdrawn claims:** None.

6 **Amended claims:** Claim 1.

7 **New claims:** None.

8

9 **1. (Currently Amended)** A system, comprising:

10 ~~a digital radio broadcast station having a transmitter and a server; and~~

11 a receiver in communication with [[the]]_a digital radio broadcast
12 transmitter and a digital radio broadcast server, the digital radio broadcast
13 transmitter and the digital radio broadcast server residing within a digital radio
14 broadcast station that transmits audio content, the receiver comprising a user
15 interface for receiving user input commands comprising a request for information
16 from the digital radio broadcast station, wherein the receiver is configured to
17 establish a two-way communication path between the receiver and the digital radio
18 broadcast transmitter residing within the digital radio broadcast station, thereby
19 establishing a feedback loop between the receiver and the radio broadcast station
20 that transmits the audio content,[[;]]

21 wherein the receiver is further configured to receive a response message
22 from the digital radio broadcast station that transmits the audio content, the
23 response message generated in response to the request for information, and

24 wherein the request for information is provided from the receiver to the
25 digital radio broadcast server residing within the digital radio broadcast station via

1 a network and the digital radio broadcast server residing within the digital radio
2 broadcast station is configured to receive the request and transmit ~~[[a]]the~~
3 response message to the receiver in accordance with the request.

4
5 2. (Original) The system according to claim 1, further comprising a
6 computer in communication with the receiver, the computer configured to receive
7 and display the response message.

8
9 3. (Original) The system according to claim 1, further comprising a
10 telephone in communication with the receiver, the telephone configured to receive
11 and display the response message.

12
13 4. (Original) The system of claim 1, wherein the response message is
14 provided to an e-mail address.

15
16 5. (Original) The system of claim 1, further comprising a database in
17 communication with the server containing information related to a digital radio
18 program.

19
20 6. (Original) The system of claim 1, wherein the request for information
21 comprises a request for specific information relating music currently being
22 broadcasted by the digital radio broadcast station.

23
24 7. (Original) The system of claim 6, wherein the specific information
25 further comprises information identifying a radio channel of interest.

1 **8. (Original)** The system of claim 6, wherein the response message
2 comprises specific information relating to music currently being broadcasted by the
3 digital radio broadcast station.

4
5 **9. (Original)** The system of claim 1, wherein the request for information
6 comprises a request for specific information relating to music previously
7 broadcasted by the digital radio broadcast station.

8
9 **10. (Original)** The system of claim 9, wherein the specific information
10 further comprises information identifying a radio channel of interest.

11
12 **11. (Original)** The system of claim 9, wherein the response message
13 comprises specific information relating to music previously broadcasted by the
14 digital radio broadcast station.

15
16 **12. (Original)** The system of claim 1, further comprising a device in
17 communication with the receiver for receiving the response message.

18
19 **13. (Original)** The system of claim 12, wherein the device is any one of a
20 printer, an e-mail register, a pager, a personal digital assistant, and a storage device.

21
22 **14. (Original)** The system of claim 12, wherein the device further
23 comprises a program directory containing information relating to previously played
24 programs.

1 **15. (Original)** The system of claim 14, wherein the device is any one of a
2 receiver, computer, and telephone.

3
4 **16. (Original)** The system of claim 1, further comprising an online
5 purchase device for processing a purchase transaction between a user of digital radio
6 broadcast services and the digital radio broadcast station and a third party vendor,
7 wherein the user may purchase program materials currently being broadcasted over
8 the digital radio broadcast station.

9
10 **17. (Original)** The system of claim 1, further comprising a recorder in
11 communication with the receiver for recording audio programs broadcast by the
12 digital radio broadcast station.

13
14 **18. (Original)** The system of claim 1, further comprising a program guide
15 related to specific audio channels at specific times.

16
17 **19. (Original)** The system of claim 18, wherein the program guide is
18 deliverable to a device in communication with the receiver.

19
20 **20. (Original)** The system of claim 19, wherein the device is any one of
21 an e-mail register, a pager, a personal digital assistant, a telephone, and a computer.
